### ABOUT ME

I am a FullStack developer with a focus on Back-End but with a strong interest in Front-End. I am a proactive individual with a keen enthusiasm for continuous learning in new technologies and related fields.

### EDUCATION

#### Full Stack Developer

Bootcamp Soy henry | 2022-2023

#### Web Design

Bootcamp NUCBA | 2022

#### University Technical Degree in Programming

UTN | 2021 - 2022

### EXPERIENCE

#### Software Developer

Mia Perla | October 2023 - Present

Programming a sales system for inventory control, report management, cash handling, purchases, sales, suppliers, etc. Developed using C# .NET Core for the Back-End, SQL Server for its database, and Angular along with Angular Material UI for the creation of an intuitive and modern interface.

#### Backend Developer

Shokworks, Inc. | April 2023 - August 2023

Participated in the development of the Back-End for MVPs for the ISTS program (Idea Stress Test Simulator), contributing to supporting pre-seed entrepreneurs in the creation of initial and final versions of their projects.

#### Fullstack Developer

CandyShop | December 2022 - January 2023

Participate in the development of an E-commerce website for a wholesale candy store. ReactJS was used for its Front-End. Redux to handle the states, NodeJS with Express was used for its Back-End. Sequelize for communication with the database, which was used Postgresql.
